

CARDIFF HEIGHTS

2 1 1

This well built 1952 model has been in the one family since being built and has seen the kiddies play cricket, grow up and move away.

Now it's time to hand ownership over to another fortunate first home buyer, family, retiree, empty nester or investor.

From the front patio you enter into a wide hallway. To the right, at the front of the home is the spacious master bedroom complete with large built-in robe. To the left is the formal living area with fireplace.

The formal dining room comes off the updated kitchen, which boast plenty of cupboards, double sink, range-hood, pantry and space for your microwave.
